SUMMONS.

IN THE DISTRICT COURT OF the Fifth Judicial District of the State of Nevada, in and for the County of Nye.

Action brought in the District Court of the Fifth Judicial District of the State of Nevada, in and for the County of Nye, and the Complaint filed in said County of Nye, in the office of the Clerk of said District Court.

Cassie Barnett, Plaintiff vs. J. W. Barnett, Defendant.

The State of Nevada sends greeting to J. W. Barnett, Defendant.

You are hereby required to appear in an action brought against you by the above-named Plaintiff in the District Court of the Fifth Judicial District of the State of Nevada, in and for the County of Nye, and to answer the Complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons, or, if served within this county, or, if served out of this county, but in this district, within twenty days; otherwise, within forty days; or judgment by default will be taken against you, according to the prayer of said Complaint.

The said action is brought to dissolve the bonds of matrimony now existing between Plaintiff and Defendant on the grounds of neglect of the Defendant, for over a period of one year, to provide Plaintiff with the common necessities of life, when such neglect was not the result of poverty on the part of Defendant, which he could not avoid by ordinary industry. That Defendant without excuse and with the ability to provide said common necessities of life for Plaintiff failed and neglected to do so for over a period of one year.

This action is also brought for the purpose of decreeing any property heretofore acquired or held by Plaintiff, at time of judgment, to be her own separate property.

And you are further notified that if you fail to appear and answer said Complaint, as above required, said Plaintiff will apply to the Court for the relief demanded therein.

Given under my hand and the Seal of the District Court of the State of Nevada, in and for the County of Nye this first day of November, in the Year of Our Lord One Thousand Nine Hundred and Eleven.

(Seal) ROBERT G. POHL, Clerk.

By LOWELL DANIELS, Deputy Clerk.

C. L. RICHARDS, Attorney for Plaintiff.

POWER OF NEW AUTOMATIC RIFLE

A Swede named Svenson claims to have invented a new automatic rifle which may do away with machine guns on the field of battle, while the ordinary infantry soldier, armed with this weapon would become more formidable than he is with his present equipment.

The new invention has not only been applied to rifles, but to fowling pieces and other weapons. As regard rifles, Mr. Svenson has invented two kinds of appliances, one of which can be used as an ordinary rifle and another as a machine gun. Mr. Svenson claims that his weapon can and will be made to perform both functions without its weight in any way being increased. It can be loaded either at the breach or underneath by inserting the cartridge magazine.

A company of infantry equipped with the new rifle and forming a front of 15 paces, can fire, it is said, 70 shots per second, or if battery of machine guns, consisting of four pieces, served by 16 men, with their officers, would occupy a front of 15 paces and fire under the same conditions only 32 to 95 shots, respectively, in the same space of time.

In addition to this, machine guns are difficult to transport, or to place in position, or to hide from the enemy, which is not the case with the rifle of the Svenson type.

The new weapon is about the same weight as the Mauser rifle, and has the same kind of barrel, but its entire length is five centimeters shorter. Another advantage is its simplicity of construction, possessing, as it does, only 17 movable parts, including the spiral springs.

OTHER SIDE OF SHOOT-UP

The Elko Independent gives a different version of the shooting affair at Red House, where a man named Hess was accused of all kinds of shooting stunts. The paper says:

"Sheriff Harris returned last evening from his trip to the Red House after Fred Hess, who is charged with shooting up that place last week. He and Constable Kiepler arrived at the Red House on Wednesday night and found Hess, who came out of the house and greeted the officers as if he was not charged with attempting to kill three or four people.

"Hess had no frozen toes or hands, and had suffered no discomfort from the intense cold. Neither had he frequented Indian camps more than usual nor hid out nights in the sagebrush dodging officers.

"From what Sheriff Harris learned at the Red House, the sensational story told by the parties who caused the arrest of Hess, should be taken with many grains of salt. It appears from the story told Sheriff Harris by Hess and McConnell that the affair was nothing more or less than a drunken brawl, in which all the parties involved were pretty well filled with the bug juice."

PRETTY WOMAN HAS CHARMS FOR THE KING

BANGKOK, Jan. 8.—An incident of the recent coronation of the new king of Siam, which has just come to the knowledge of Europeans, shows how western notions do not always fit in with eastern custom. The king has a strong predilection for amateur theatricals, and had arranged a gala in connection with the coronation. Rahanart, a member of his suite, has a very pretty wife, and he objected to her taking part in the performance, even going to the length of sending her home from the theater during a rehearsal.

This action so incensed the king that he deprived the unfortunate man of his title, sentenced him to one year's imprisonment and ordered him to receive thirty blows with a rattan. After this had been carried into effect the wife was compelled to go on attending the rehearsals.

The affair caused a very unpleasant impression, not only among the Europeans in Siam, but also among the better class of Siamese. It is stated that the king of Siam proposes to favor the courts of Europe with a visit next autumn, and that he will grace England with his presence for some months.

SECOND VICTIM OF TAYLOR'S BULLET IS DEAD

News has been received here of the death of Robert Settlemyre, who was shot by J. M. Taylor at the Carlson ranch, near Andrews, Ore., on December 21. Settlemyre died six days after he was shot. His death made a double tragedy of the shooting affair, Taylor having killed both Albert H. Perry and Settlemyre with the same bullet, the latter being an innocent victim.

Taylor, who was arrested at Denio and held for several days, was taken from there to Burns, the county seat of Harvey county, by the sheriff, but it is not known whether or not his preliminary examination has been held or not.

CALIFORNIA'S EEL WORM STINK

Although California succeeded in kicking up quite a stink in reference to the eel worm in the Nevada spud (which pest she originally slipped into us by the seed potato route), she has only helped advertise the superiority of the Nevada spud product over that grown on California's soil. She could not kick up stench enough to blind people to the fact that every short while California is earthquake ridden from Frisco to Fresno on the south and Eureka on the north. Besides, she has other undesirable things, which, to paraphrase, read: California advertises "Climate the Best—"

But she's the home of the flea— And the Heathen Chinee— And the "Native Son" of the Golden West."

—Faxon Valley News.

PAVS BULLION TAX.

Bullion Tax Collector Adamson reports that the sum of \$6427.90 has been collected from Storey county as bullion tax license for the quarter ending September 30, 1911. This is the first license money to be collected from that county for many years and represents a gross production of nearly a half-million dollars.

PROTESTS HAVE EFFECT.

Different states filed by the appointment of Judge Hook to the supreme bench have had their effects. President Taft has announced that he will investigate the judge's record before he sends the nomination to the senate.

A FOOLISH SWINE.

A North Missouri farmer, whose hog was killed by a train, wrote to the company's claim agent for a settlement, says a writer in the Columbia Statesman. He penned his communication thus:

"Dear Sir:—My razor-back strolled down your track a week ago today. Your twenty-nine came down the line and snuffed his life away. You can't blame me, the hog, you see, slipped through a cattle gate; so kindly pen a check for ten, the debt is liquidated."

He received the following reply: "Old twenty-nine came down the line and killed your hog, we know, but razor-backs on railroad tracks quite often meet with woe. Therefore, my friend, we cannot send the check for which you pine. Just plant the dead, place o'er his head, 'Here lies a foolish swine.'"

MANY HAVE RELATIVES HERE.

A woman who gave her name to the authorities as Mrs. Delia O'Brien, died Saturday morning at the Storey county hospital, where she had been under treatment for the past three weeks. The Chronicle says that the woman drifted into Virginia City about three months ago and had been employed at odd jobs about the city up to the time of her last sickness. She was addicted to alcoholism and death was due to an ailment of the brain. Nothing is known of the deceased, or of her relatives, although she claimed to have two brothers in Tonopah.

BOOSTING MEANS PROSPERITY.

The editor of the Elko Free Press very truly says: "There can be no doubt the newspapers of this state are making money, the writer has long observed that, let a man be prosperous, a trifle more money coming in than going out, and that man is optimistic; but as the newspaper is but the pulse of the community in which it is situated, the county must be prosperous for the newspaper to make money; and if this reasoning be true, the whole estate is prosperous, as every man present at the recent editor's convention was a booster, and to be a booster, you must be prosperous."

TRANSCRIPT RECEIVED.

District Attorney C. J. McFadden has been notified by Clark Joe Josephs of the Nevada state supreme court that the transcript on appeal in the suit against University club to collect money alleged to be due for retail liquor licenses, has been received. A decision was handed down by Judge Averill of Tonopah against the University club, and the defendant appealed from the decision of the lower tribunal.—McGill Copper Ore.

COLD RECORD IN ELKO.

The Elko Independent, in commenting on the present cold weather, quotes some records that makes the present spell appear like real summer. During the winter of 1888 at noon on January 9th, the thermometer registered 50 below zero; on the 15th of the month, the same year, it registered 59 to 61 below. For ten days this kind of weather was recorded at Elko.

SECRET SOCIETIES.

The attorney demanded to know how many secret societies the witness belonged to, whereupon the witness objected and appealed to the court.

"The court sees no harm in the question," answered the judge. "You may answer."

"Well, I belong to three." "What are they?" "The Knights of Pythias, the Odd Fellows and the gas company."
